## COUP BY THE COMBINE

Now Expected by the Leaders of the Amalgamated Association.

### STRIKERS UNEASY BUT CONFIDENT.

Gage of Battle Thrown Down at McKeesport and Glassport—Situation at Wellsville—Another Plant Organized.

Pittsburg, July 23.—The leaders of the Amalgamated association are evidently expecting some coup by the combine, and while they express confidence in the strength of their organization, there is an undercurrent of uneasiness. Heretofore the strike has been plain sailing, but there is an impression that the gage of battle thrown down at McKeesport and Glassport is about to be taken up in an uncertain fashion.

Assistant Secretary M. F. Tighe said: "Reasoning purely along line of former strikes, it does not seem unlikely that the trust may try to start Painters' or even more mills with nonunion men as a preliminary test of strength, but I do not think it will be successful. If such a thing is tried, of course the police will figure as guards. There the danger lies." Manufacturers who are conversant with the situation declare that the workers will soon weaken and that the United States Steel corporation is waiting until the men are ready to go to work.

Trustee John Pierce of the Amalgamated association organized a lodge of workmen at the Glassport plant of the American Steel Hoop company. This is considered another victory by strikers, since this mill has been nonunion since it was opened. It is reported that the lap and butt welders of the National Tube works of McKeesport, as well as the pipe cutters, are to be organized by the Amalgamated, perhaps on Sunday next. With these departments well organized, the association will be in such shape to completely tie up the big plant if it desires.

While the company at the Wellsville mill received the accession of a few men from the ranks of the strikers, the number is not yet large enough to justify the mill in starting up in full. In the meantime the Amalgamated men are keeping a constant watch upon the mill and all the avenues that lead to it. Pickets have been thrown out along the streets and at the railroad stations, so that nothing will escape the vigilance of the strikers if the company should bring any new men in.

### Strikers Wary.

At Deweese Wood mill in McKeesport, everything is as before. From unofficial sources claiming to be conversant with the company's plans, it is said the management have no intention of resuming the operation of plant at present. Nevertheless the strikers are wary and evidently don't believe this, because they continue to patrol the streets for the purpose of keeping their eyes on any one going towards the mill.

At Vandergrift and Duncansville, the men appear to be entirely satisfied and work is going on there as usual. All the efforts of the Amalgamated association to get the men out have so far been futile.

Reports are rife that the United States corporation will shortly make an effort to start up Painter's mill of the American Hoop company in this city. Emissaries are said to have been among the idle operatives of that plant for the purpose of inducing them to come back and help in the resumption of the mill. The result of this report has caused the Amalgamated men to redouble their vigilance at this point and they will do everything in their power to frustrate the object of the company.

One of the most significant developments of the strike is the order of the National Steel company to have the former rail mill of that company in Youngstown fitted for rail rolling again. The fact that the National Steel company is thus preparing to change its rail production and shut off its steel bar and billet production is taken as an indication that the officials of the United States steel corporation are anticipating no early settlement of the present strike, but are rather looking for some considerable delay in operating the mills. The plant is nonunion.

Charleston, W. Va., July 23.—Judge Jackson of the United States court heard the contempt proceedings against the miners from Thacker, growing out of the recent strike in the coal mines there. The contempt case for violation of injunction was dismissed. The injunction was made perpetual and the men were put under bond to answer any indictment that may be found by the grand jury at Huntington, for the shooting that occurred during trouble at the mines.

### SIXTEEN KILLED.

#### Explosion of Petroleum on Board an American Schooner.

Stockholm, Sweden, July 23.—An explosion of petroleum on board the American schooner Louise Adelaide, Captain Orr, which left Philadelphia April 24, and Portland, Me., June 4 for Stockholm, in the harbor here, resulted in the death of Captain Orr, 10 members of the schooner's crew and four Swedish customs officials. Two of the Adelaide crew escaped. The explosion set the schooner afire and the blazing petroleum enveloped the vessel and those on board.

The Louise Adelaide was built at Yarmouth, Me., in 1882. She was 154 feet long, 34 feet beam and 12 feet deep, and registered 672 tons. She was owned by Edgar Orr of Portland, Maine.

### Work of a Tornado.

Cincinnati, July 23.—A thunderstorm which brought relief to the heat stricken populace here, passed across the river and assumed cyclonic proportions and left a trail of destruction in its wake. Fences, trees, barns and outbuildings from Newport east to Fort Thomas and south into the state for a considerable distance were leveled. The frame house of John Schrader near Fort Thomas was overturned and his wife and 10-year-old daughter were seriously injured. Schrader and his other daughter escaped uninjured. Mrs. Schrader is in a precarious condition.

### Relief Only Temporary.

Washington, July 23.—The weather bureau officials find nothing in the climatological conditions to justify any prediction of change of the temperature in the heated section of the country. The principal weather bureau stations in the middle Mississippi valley generally reported somewhat lower temperatures, but the forecasters say that this change is in a probability only temporary and might have been caused by a slight variation of the wind. At St. Louis and other points in the west the official thermometer showed a decline.

### Moonshiners Vanished.

Monterey, Tenn., July 23.—The posse from Nashville to re-enforce the revenue raiders engaged in Saturday's battle reached here under command of Revenue Agent Chapman and United States Marshal Overal. They found the region quiet and information concerning the moonshiners hard to obtain. Nothing definite could be learned of the several mountaineers supposed to have been wounded or of their recent movements. Thomas Price, the wounded deputy marshal, is still alive, but can live but a short time.

### Gave Himself Up.

Cleveland, July 23.—Raffaello Farinacci, an Italian for whom the police of this city have been seeking for nearly a year on the charge of murder, surrendered himself to the authorities.

Farinacci and Donati Batiste quarreled over a game of cards in a saloon Aug. 7 last. Batiste's dead body was found in the streets a few hours later, having been stabbed with a stiletto. Farinacci said when he gave himself up that he had been in New York.

### New Tin Plate Plant.

East Liverpool, O., July 23.—About 20 men have been added to the force which is renovating the Chester, W. Va., plant of the American Tin Plate company, preparatory to starting it as a tin plate mill.

District Manager William H. Banfield stated that the work would be pushed with all possible speed. The plans of the addition of the mill have been changed so that when the work is complete, the present capacity of mill will be doubled.

### Bank Robbers Foiled.

Norwalk, O., July 23.—Three burglars made an unsuccessful attempt to rob Stoddard & Lockwood's bank at Milan. The outer door was blown open with dynamite, but an alarm was given and the burglars hastily made their escape. The safe contained \$15,000. This is the third attempt within the past 10 years. Once the safe was robbed of \$2,000.

### Light Rains in the West.

Kansas City, July 23.—Light, scattered showers are reported in northwestern and eastern Kansas and northern Texas, but at no point, it is believed, was the fall sufficient to cause permanent good. The rain reported in Kansas for the past 12 hours takes in seven counties in the eastern part of the state.

### Call to National Banks.

Washington, July 23.—The comptroller of the currency has issued a call for the condition of the national banks of Monday, July 15, 1901.

## SUCCESSOR TO ALLEN

William H. Hunt Duly Appointed Governor of Porto Rico.

### FORMER TO RETIRE IN SEPTEMBER.

New Official Now Secretary of the Island—China and the Indemnity—News Notes of the National Capital.

Washington, July 23.—William H. Hunt, the present secretary of Porto Rico, has been selected to succeed Governor Charles H. Allen upon the retirement of the latter from the consular government. Governor Allen brought with him to Boston all of his household effects when he came from San Juan, and he does not expect to return to Porto Rico. The formal announcement of the selection of Governor Hunt is withheld until the regular appointment is made, and this cannot be before the expiration of the leave of Governor Allen next September.

William H. Hunt was born in New Orleans, Nov. 5, 1857, and is the fourth son of late William Henry Hunt of Louisiana, who was secretary of the navy in the cabinets of Presidents Garfield and Arthur and minister to Russia. Judge Hunt received his education at Yale college, but on account of ill health did not finish his course. In 1896 Yale conferred upon him the honorary degree of master of arts. When 27 years of age, he was elected attorney general of the territory of Montana. He subsequently moved to Helena in 1899, was elected a member of the legislature, where he served as chairman of the judiciary committee. He was a member of the constitutional convention in 1884 which framed the constitution when it was admitted to the union and also held important judiciary positions in Montana. When Governor Allen went to Porto Rico he was requested by President McKinley to become secretary of the island to assist Governor Allen in organizing the civil government.

**Free Trade With Porto Rico.**  
Free trade between the United States and Porto Rico will be proclaimed Thursday. Attorney General Knox is preparing the proclamations which will be issued. Two proclamations will be issued, the first declaring the establishment of civil government in Porto Rico and the second the establishment of free trade between the United States and the island.

Although civil government has existed for many months in Porto Rico, Governor Allen, up to the time he went to Canton on Sunday, purposely withheld the formation of that fact from the president, in order that the moneys collected under the Foraker act might not be placed at the disposal of the Porto Rican legislature, but could continue to be used for the benefit of the island under the direction of the president.

The effect of an earlier notification would have been a proclamation by the president recognizing the establishment of civil government and the turning over to the insular treasury for the use of the legislature of all moneys thereafter collected under the Foraker act.

### Presidential Appointments.

Washington, July 23.—The president made the following appointments: War—Ernest P. Newson, and H. Percey Silver, chaplains in army; Harry R. Lemon, assistant surgeon volunteers, rank of captain; 1st lieutenants of infantry—Frank F. Furtner, William B. Grace, Samuel R. McIntyre, Samuel A. Price, Harris Pendleton, Jr., Peter Vedenburg. First lieutenant of cavalry—Delphay T. E. Castel, Alvan C. Gillem, George E. Lovell, Henry M. Morrow, Samuel Van Leer and a host of second lieutenants.

State—Lewis A. Martin West, vice United States consul at Guadalajara, Mexico. Treasury—Henry C. Turley, collector of customs, department of Pearl River, Miss.

### How China Will Pay.

Washington, July 23.—Special Commissioner Rockhill at Peking has telegraphed the state department announcing that a plan for the payment of the indemnity to the powers by the Chinese government finally had been adopted.

The amortization of the bonds to be issued will begin in 1902, and the plan contemplates the entire liquidation of both principal and interest by 1940. It is expected that China will raise 23,000,000 taels annually. This sum will be used to pay the interest on the bonds and to form a sinking fund for the ultimate liquidation of the principal.

### Tolstoi's Condition.

St. Petersburg, July 23.—Advices from Moscow are to the effect that Count Tolstoi's doctors do not regard him as entirely free from danger until the malaria has been expelled from his system. Count Tolstoi is much weakened by sweating.

### FREE RURAL DELIVERY.

Kentucky Behind Her Sister States in These Postal Facilities.

Danville Advocate: In the matter of establishing rural free mail delivery routes Kentucky shows a marvelous lack of enterprise. While the system is progressing rapidly in the Northern States, and is proving most satisfactory wherever introduced, the figures show that Kentucky is making little effort to make use of a valuable privilege. For instance, Ohio has 309 routes and 834 applications pending; Indiana has 358 routes and twice as many pending. Kentucky has only thirteen routes and only thirty-nine applications pending. While this State of affairs shows a grievous lack of public spirit, it may be attributed to some extent to the lack of information regarding the system, and the manner in which rural delivery is secured.

A petition descriptive of the proposed route is forwarded to the Congressman of the district, and after endorsement by him is sent to the Postoffice Department. It is then referred to the special agent in charge of one of the six districts, and by him referred to a subordinate agent for investigation and report. In event of favorable recommendation from him the petition is signed by the proper officials and the route is put into operation. The question of rural delivery is closely connected with the good roads agitation which is attracting so much attention just now. Good roads are a necessary adjunct to the permanence of the system, as the department insists that all highways over which carriers pass be kept in perfect condition.

### FOSEBURG TRIAL.

**Certain Newspaper Reporters Ejected.**  
Day's Testimony.

Pittsfield, Mass., July 23.—At the opening of the session of the Fosburg manslaughter trial, Judge Stevens excluded from the court four men and two women, representing three New York newspapers, because of articles published in those papers bearing on the case which were objectionable to the court. The sheriff requested the correspondents to leave the court room, and those representing the papers named by the judge went out in a body.

Captain William G. White of the Pittsfield police was the first witness. The questions of the defense seemed to disclose lack of memory and an absence of thoughtfulness on the part of the officer when he was called to the Fosburg house. Policeman Flynn of Pittsfield, who aided Captain White in the search of the Fosburg premises, gave testimony much the same as that given by his superior, adding that the defendant denied that the shoe which was found belonged to him.

### Crops and Drought.

Washington, July 23.—Mr. Wilson, secretary of agriculture, does not take so gloomy a view of the agricultural prospects between the Allegheny and the Rocky mountains as do some of the so-called experts who are not connected with the government service. Nor yet does Mr. Wilson attempt to minimize the injury already done and that will increase unless there is a great precipitation of moisture during the next few weeks in the vast stretch of country between the continental mountain ranges. While he acknowledges that the hard wheat belt of the northwest has been damaged he does not yet despair of an average yield of corn in the corn belt.

### Johnson's Beard Restrained.

Cleveland, July 23.—Judge Ford of the common pleas court, issued an injunction restraining the city annual

board of equalization from increasing the tax value of the Cleveland Electric Railway company, otherwise known as the Big Consolidated company, above the figures returned by the officials of that corporation. The petition for the injunction was filed by the attorneys of the railroad company.

The board of equalization, it is said, was about to raise the tax valuation of the Big Consolidated company by several millions of dollars.

### Passengers Shaken Up.

El Paso, Tex., July 23.—A serious accident occurred on the line of the Mexican Central near Montezuma. Several passengers on the train were severely injured, some of whom are expected to die. A Pullman palace car, which had been side tracked to allow another car to be coupled to the train, got beyond control of the brakeman and started down a steep grade. The train backed up to catch the flying car, and on reaching it a collision occurred. The injured passengers fell from Kansas and Texas.

### Lightning Strike.

Warren, O., July 23.—John Lowery, while intoxicated, attacked his family, when a son, Charles, interfered. Lowery was pursuing the son when the latter shot his father in the side. Lowery will recover.

## FREEDOM OF LONDON

Presented Lord Milner For His Valuable Services In South Africa.

### GALA OCCASION FOR THE JINGOES.

Chamberlain et al. Stir Up a Demonstration in Favor of the War.  
King Edward Makes Another Break—Foreign News.

London, July 23.—The presentation of the freedom of the city of London to Lord Milner of Cape Town at the Guildhall was made the occasion of another jingo demonstration in favor of the war in South Africa and the policy of the government. Joseph Chamberlain, the colonial secretary; the Duke of Devonshire, president of the council and other cabinet ministers, Lord Cromer, British consul general in Egypt, and Sir Claude MacDonald, former British minister to China, were among those on the platform.

Lord Milner in a speech, said the compromising of the settlement of the South African situation by injudicious concessions must not be thought of, nor should the risk of a popular rising be run by treating deliberate and crime-stained treason as a venial offense. The speaker said there was an immense difference between the stout old burghers of the late republic and the "roving ruffians" harrowing their fellow British subjects of Cape Colony. While it was resolved to treat the old burghers, when the war was over, with fairness and even generosity, convincing them that though they had lost their freedom, continued Lord Milner, the loyalists in South Africa who had shown such splendid devotion to the empire and the work of reconstruction already going on, should not be alienated.

**The King to American Flunkies.**  
London, July 23.—Much gossip in American and English society has been caused by the presentation to King Edward, by some American ladies of the hospital ship Maine committee, of a medal commemorative of the Maine's work, with a request that the king transmit the medal to Queen Alexandra. The king's reply to the delegation which made the presentation, is causing some comment, as he thanked the American committee for their "loyal, dutiful sentiments," as he did the Kansas legislature in answering their telegram of condolence on the queen's death, and as he also thanked the committee for bringing their valuable services to a culmination by presenting the ship to the government, whereas this was done solely by Bernard H. Baker of Baltimore.

### Grand Lodge of Elks.

Milwaukee, July 23.—The convention of the grand lodge of the Benevolent and Protective Order of Elks opened here. The opening exercises consisted mainly of informal addresses. Charles H. Hamilton of Milwaukee presided. Mayor David S. Rose welcomed the guests and Judge Jerome R. Fisher, grand exalted ruler, responded. Grand Exalted Ruler Fisher presented his report which showed that during the past year 113 new dispensations had been granted, and that now there were 7,275 lodges having a membership of 6,000, showing an increase since the last convention of 33 1/2 per cent. The order had contributed \$17,041 to the Galveston fund. The financial condition of the grand lodge showed a balance on hand in the treasury of \$30,000.

### Sighted a Burning Steamer.

Victoria, B. C., July 23.—The master of the steamer Nell, which has arrived here, reports that 10 days ago, when he was waiting for the tide to enter a creek below Port Simpson, he watched a large two-masted passenger steamer, seemingly an American vessel, which evidently was on fire. For three-quarters of an hour she lay still off Dundas island with a great cloud of smoke above her spars and her hull hidden in a pall of steam which looked as though water was being put on fire. Then she ran toward Dundas island as though the officers were running her ashore. The Nell's officers watched her for a long time until the smoke obliterated their vision, and when it cleared she was gone.

### Manned By Nonunionists.

Shamokin, Pa., July 23.—Notwithstanding the refusal of the Philadelphia and Reading Coal and Iron company to reinstate their striking mine firemen, all of the strikers at the other mines in this region returned to work. The Reading company's fire rooms are manned by nonunion men, and all of the company's collieries are in operation.

### Won't Talk.

New York, July 23.—President Schwab and the officers of the United States Steel corporation declined to discuss the steel strike.

It is given out that the L. and N. car-pinters base their demand for an increase of wages upon the alleged prosperous condition of the country. That's right. It's a poor sort of prosperity in which the laborers don't share.

WHAT'S become of the McKinley prosperity? Sixty-seven thousand men and women are now on strike in New York and immediate vicinity to enforce a demand of garment makers for a fifty-nine hour week and a 30 per cent. increase in wages.

SENATOR DEBDE hasn't a very elevated opinion of some of the Republican leaders in Kentucky. Hear him:

I think if Combs and Roberts were given every Federal office in the State of Kentucky they couldn't control the Republicans of this State. They haven't the personal following.

### PROTECTION FOR EXTORTION.

But no one of the protection leaders—neither, Morill, Kelley, Blaine, McKinley, Dingley, nor any of the co-workers of either of them—ever advocated protection for such competition in foreign markets as our steel men are engaged in to-day, says the Washington Post. No man can cite from any Republican leader or any advocate of protection a word in defense of protection for confessed and notorious extortion. Various products of the steel combine are sold all over Europe at much less than the prices demanded from home consumers. That is extortion.

### THE FARMER AND TRUSTS.

Tobacco Growers Who Sell to Agents of the Combine Not Very Wise.

[The Louisville Weed.]

The farmer that persists in selling his tobacco to trust agents in the country is no wiser than the man who stood in the middle of a railway track and expected the approaching train to run off the track before reaching him; just because he wanted it to do such a thing. The comparison in this sense is not at all out of place, for the farmer who continues to sell to the trust in the country is lending his assistance to break up the auction markets, the only barrier between him and this crushing monopoly. The fact an auction market sets the price and retains it, especially so when the trust can be made to continue an auction buyer, should be strong enough evidence of the good offices of an auction market. If all the Kentucky growers of tobacco would refuse to sell to the trust in the country this winter the price of tobacco would be three cents a pound higher, if half of them would do this the price would be close to 2 cents a pound higher than last season, and the effect of even a smaller proportion than this would be beneficially felt. We wonder why the Kentucky farmer is not willing to try it anyhow.

Mrs. Mary J. Sherwood died this morning at 7 o'clock after an illness of several weeks at her home on Lindsay street. Funeral Friday morning at 9 o'clock at the family residence. She was seventy-eight years old and is survived by one son.

### PERSONAL.

Mrs. Lydia C. Rogers is at home after a visit in the country.

Miss Christine Schaeffer is visiting friends at Orangefield.

Mr. and Mrs. T. J. Winter are spending the week at Glen Springs.

Robert Roe arrived home Thursday last, bringing with him his "bike," to spend a few days at the old place, and "scorching" on the pike.

A horse attached to a buggy started to run away in the "burg" Saturday. A frightened mother and tiny baby were its only occupants.

The mother screamed for help, and when Mrs. C. J. Ross appeared begged her to take the baby out of her arms and save it. But Mrs. Ross, with forethought and presence of mind that was commendable, did better than that. She grasped the reins and stopped the frightened animal, thus most certainly preventing a deplorable accident, as the horse is a noted runaway, unfit for ladies to drive, so it is said.

A horse attached to a buggy started to run away in the "burg" Saturday. A frightened mother and tiny baby were its only occupants.

The mother screamed for help, and when Mrs. C. J. Ross appeared begged her to take the baby out of her arms and save it. But Mrs. Ross, with forethought and presence of mind that was commendable, did better than that. She grasped the reins and stopped the frightened animal, thus most certainly preventing a deplorable accident, as the horse is a noted runaway, unfit for ladies to drive, so it is said.

Robert Roe arrived home Thursday last, bringing with him his "bike," to spend a few days at the old place, and "scorching" on the pike.

## MAYSVILLE--LOUISVILLE.

Important Move to Connect Kentucky Cities With a Net Work of Traction Lines.

[Cincinnati Post.]

The first important steps to connect Central Kentucky towns and cities with a network of traction lines are to be taken at a meeting to be held in Cincinnati shortly by capitalists from Kentucky and Ohio. The work done by local promoters in Kentucky is to be reviewed and estimated, with view of combining and capitalizing all local plans under one management.

In this proposition H. H. Bechtel and A. Fabel, of the American Oak Leather Company, Cincinnati, are deeply interested. They are President and stockholder respectively of the Louisville, Anchorage and Peebles Valley Electric Railroad, now building the pioneer traction line in Kentucky.

Since the L. A. and P. V. line was begun, local capital in Shelbyville, Frankfort, Lexington, Paris, Georgetown, Danville, Richmond, Versailles and Maysville has been at work securing rights of way for traction lines. This is about as far as any of them went, but gradually a scheme gained attention to make a connecting series of lines between Maysville and Louisville, to be fed particularly by a network of lines between the near-together towns of the rich and thickly settled Blue Grass region.

The Louisville, Anchorage and Peebles Valley line, by its position, has the aspect of being the most important factor in the proposed system. Bechtel was not in the city Tuesday, and Fabel had not been apprised of the date of the

meeting, he said, and, in the absence of Bechtel, would not go into a discussion of the plan. It will take a large amount of capital to finance the system. Most of it will be secured by bonds, if the plan is decided to be feasible. It will largely depend upon the showing of rights of way secured in the last six months.

The plan is intended to attract capitalists from Louisville, Cincinnati, Cleveland and the East.

Republican politicians at Peebles, O., believe "in the early bird," etc. Postmaster Robert Cochran is dangerously ill of dropsy and three candidates for the office on the presumption that Mr. Cochran will die soon are petitioning the powers that be for the place.

## FRIDAY'S GAME BASE BALL.

Preparation Being Made For the Contest Between the Y. M. C. A. and the Eckfords.

Every preparation is being made for Friday's game between the Y. M. C. A. and Eckfords. A force is at work to-day scraping and rolling the grounds under the direction of Colonels Pollitt and Lynch. This means a number one diamond. Practice is the order for players.

Let every one turn out. Game called at 3:30 p. m. Umpire, Mr. Clarence Matthews. Admission 25 cents. Ladies free.

Not long since fifty-nine candidates reported at West Point for admission to the United States Military Academy. Out of that number but twenty-two passed the required examination. A majority of those who failed were physically defective, and most of them had poor eyesight. Excessive cigarette smoking with the habit of inhaling the smoke is said to be the most prolific cause of this discouraging condition. What makes the cigarette so much more injurious than the pipe or cigar is the common practice the devotees of cigarettes have of inhaling the smoke.

## A PEEP AT PRETTY SUMMER FOOTWEAR

Can be had at the Sensational Sale of Ladies' and Gentlemen's fine, stylish low-cut Shoes and Oxfords beginning at our store to-morrow (Saturday) morning. The goods, which are all newly-made for this season, have been marked at about one-third of their usual selling price and are really better values than we have shown in our previous sales. We purchased several hundred pairs for this special occasion—just the right sort for summer wear—and bought them at a low figure on account of the advanced season. We are willing to share our good fortune with you and are anxious to show how little really good Shoes cost here. The list that follows tells the story:

FOR \$1.98—Women's pretty Vici, Ideal Kid and Patent Leather Oxfords, webts and turns. Would be cheap at \$2.50.  
FOR \$1.48—Women's Oxfords, lace and buttons, Cuban, Military and French heels. You wouldn't refuse them at \$2.  
FOR \$1.25—Women's All Patent Leather Oxfords. The price is small, but the bargain is big at this figure.  
FOR 98 CENTS—Women's Oxfords, all styles and shapes. \$1.25 is often asked for same quality elsewhere.

FOR \$2.48—We offer gentlemen's very swell Patent Kid-Oxfords that were made to sell at \$3.  
FOR \$1.95—Men's handsome Enamel Calf Oxfords that earlier in the season would easily bring \$2.50.  
FOR \$1.48—Men's nice Vici Kid, black and tan, Southern Ties and Oxfords, well worth \$2.  
FOR \$1.98—Men's substantial Tan Welt Bals, a bargain because they ought to be worth \$3.50.

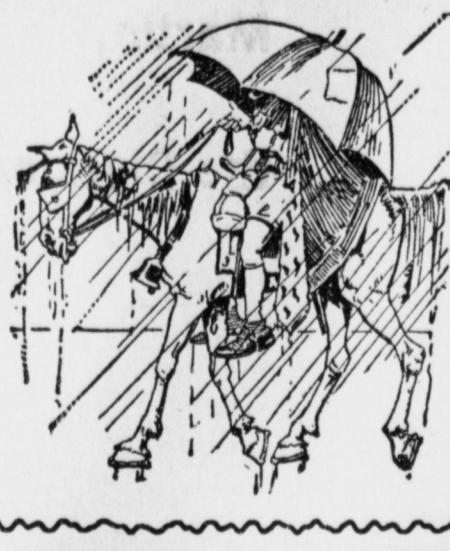

## IN THIS SALE

Are some Women's Chocolate and Patent Tip Oxfords, quite good, that go at 75c.; Misses' and Children's Tan Slippers at 35 and 40c.; Men's Dongola Bals for 75c.; Men's Work Shoes, whole stock, worth \$1.35, at 95c., and Men's and Boys' Tennis Oxfords at only 25c.

#### KENTUCKY CROPS.

They Are Suffering From the Hot Dry Weather—Damage to the Corn, Tobacco and Gardens.

[Weekly Bulletin of the Weather Bureau.] Showers gave relief to a few localities, but over the State generally the drought

continues. In the west it is burning up pastures and gardens and severely injuring the corn and tobacco and all growing crops. In the central portion, corn and tobacco and other crops are at a standstill, but are not permanently injured to any great extent. In the eastern section, with the exception of some counties in the north, the conditions are more favorable, but rain is badly needed in every portion of the State.

Wheat is about all threshed and a fairly good crop is reported, as a whole. Hay was saved in excellent condition, but is somewhat below the average for the whole State. Hemp is doing fairly well. Farm work is well up.

Water for stock is becoming very scarce in some places.
